Positive aspects and small difficulties

6- What's Next for the Future?

Studies, goals, and career plans

The Company

- Company name: Studio Graphis
- Location: In the Oise Region (Lamorlaye)
- Created on October, 9th 2025
- Services: visual identity, print & digital design, basic video editing

My Position and Tasks

- Multimedia Graphic Designer apprentice
- Interactive guide about Château de Chantilly + environment
- Photo & video shooting
- Editing visuals and clips
- Creating assets for the guide

Typical day at work

- Start at 9:30 a.m.
- My tutor assigns the tasks of the day
- Photo, video, or design work depending on the schedule
- Lunch break at 12:30 p.m.
- Continue the planned tasks with feedback from my tutor

My brief experience

- One month of experience as an apprentice
- Improved photography and video shooting
- Learned new editing techniques and visual effects
- Gaining confidence and working more efficiently

What I like / What I dislike

What I like

- Working in digital creation
- Using professional tools like Photoshop, Illustrator, InDesign, Premiere Pro
- Improving effects & color grading
- A motivating mix of fieldwork & digital work

What I dislike

- Time spent on small editing details
- Some shoots taking longer because of equipment setup (tripod, stabilizer)
- Technical issues that slow down the workflow

What's next for the future ?

- Continue with a Master's degree in Graphic & Motion Design
- Study in a program that includes 3D animation
- Develop strong skills in 2D and 3D animation
- Work in a studio specialized in animation / motion design

Thanks for your attention !
